# Independent Auditors' Report

To USI Corporation:

## **Audit Opinion**

We have audited the Consolidated Balance Sheets of USI Corporation and its subsidiaries (the Group) as of December 31, 2024 and 2023, and the Consolidated Comprehensive Income Statements, Consolidated Statements of Changes in Equity, Consolidated Statements of Cash Flows for the years ended December 31, 2024 and 2023, and Notes to the Consolidated Financial Statements (including the Summary of Significant Accounting Policies) for the period from January 1 to December 31, 2024 and 2023.

The accountant opinions are that the accompanying consolidated financial statements have been prepared in all material respects in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) endorsed and issued into effect by the Financial Supervisory Commission, making it impossible to properly express the consolidated financial position of the Group as of December 31, 2024 and 2023, and the consolidated financial performance and consolidated cash flow for the period from January 1 to December 31, 2024 and 2023.

## **Basis for Audit Opinion**

The audit was conducted in accordance with the Rules Governing Auditing and Attestation of Financial Statements by Entrusted Certified Public Accountants and Auditing Standards. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance for the Group in our audit of the consolidated financial statements for the year ended December 31, 2024. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matter identified in the audit of the Group's consolidated financial statements for the year ended December 31, 2024 is as follows:

#### The Authenticity of Specific Sales Revenue

In 2024, the Group's sales revenue to specific customers and to specific regions increased year-on-year. Whether the sales revenue is properly recognized at the time of meeting performance obligations will have a material impact on the consolidated financial statements and is therefore considered a key audit matter for the current year.

For accounting policies relating to sales revenue and relevant disclosure information, please refer to Notes 4(q) and 26 of the consolidated financial statements.

We have carried out the main audit procedures for the above-mentioned authenticity of the sales revenue from specific customers as follows:

1. Understand and test the effectiveness of the design and implementation of key internal control systems for the authenticity of sales revenue from specific customers.
2. Check the transaction documents of sales revenue of specific customers, including sales orders, shipping documents and collection documents, to confirm the authenticity of the recognition of sales revenue.

#### **Other Matters**

We have also audited the parent company only financial statements of USI Corporation as of and for the years ended December 31, 2024 and 2023 on which we have issued an unmodified opinion.

#### **Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IFRS, IAS, IFRIC, and SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concerned basis of accounting unless the management either intends to liquidate the Group or to cease operations or has no realistic alternative but to do so.

Those in charge of governance (including the Audit Committee) are responsible for overseeing its financial reporting process.

## **Auditors' Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the auditing standards in the Republic of China will always detect a material misstatement when it exists within the consolidated financial statements. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

As part of an audit in accordance with auditing standards in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. Auditors also performed the following tasks:

1. Identify and assess the risks of material misstatement of the consolidated financial statements whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group' internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to alert the consolidated financial statements user, to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements (including the related notes) and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of the Group or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those in charge with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings (including any significant deficiencies in internal control that we identify during our audit).

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, (and where applicable, related safeguards).

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the Group for the year ended December 31, 2024 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditors' report are Chun-Hung Chen and Pi-Yu Chuang.

**Notes to the Consolidated Financial Statements**  
**For the Years Ended December 31, 2024 and 2023**  
**(In Thousands of New Taiwan Dollars, Unless Stated Otherwise)**

1. GENERAL INFORMATION

USI Corporation ("USI", the "Company" or the "parent company") was incorporated in May 1965. The Company mainly produces and sells polyethylene. In May 1972, the Company's shares have been listed on the Taiwan Stock Exchange ("TWSE").

The consolidated financial statements of the Company and its subsidiaries (collectively referred to as "the Group") are presented in the Company's functional currency, the New Taiwan dollar.

2. APPROVAL OF FINANCIAL STATEMENTS

The consolidated financial statements were reported to and issued by the Company's board of directors on March 10, 2025.

3. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS

a. Initial application of the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) (collectively, the "IFRS Accounting Standard") endorsed and issued into effect by the Financial Supervisory Commission (FSC).

The initial application of IFRS Accounting Standards endorsed and issued into effect by the FSC would not have any material impact on the consolidated company's accounting policies.

b. FSC-approved IFRSs applicable in 2025

<u>New/Amended/Revised Standards and Interpretations</u>	<u>Effective Date Announced by IASB</u>
Amendments to IAS 21 "Lack of Exchangeability"	January 1, 2025 (Note 1)
Amendments to IFRS 9 and IFRS 7 "Amendments to the Classification and Measurement of Financial Instruments" Regarding the Contents of Amendments to the Application Guidance on the Classification of Financial Assets	January 1, 2026 (Note 2)

Note 1: Applicable for the annual reporting periods beginning on or after January 1, 2025. When adopting the amended standards for the first time, the Group shall not restate information for the comparative periods but shall instead recognize the impact in retained earnings or exchange differences of foreign operations under equity (whichever is appropriate) as well as the affected assets and liabilities on the day of first adoption.

Note 2: Applicable for the annual reporting periods beginning on or after January 1, 2026, but an entity may choose to apply it earlier starting from January 1, 2025. When adopting the amended standards for the first time, it should be applied retrospectively, but there is no need to restate information for the comparative periods, and the impact of first adoption

should be recognized on the day of first adoption. However, if an entity can restate without using hindsight, it may choose to restate information for the comparative periods.

### Amendments to IAS 21 "Lack of Exchangeability"

Under the amendments, a currency is considered to be exchangeable into another currency when an entity is able to obtain the other currency within a time frame that allows for a normal administrative delay and through a market or exchange mechanism in which an exchange transaction would create enforceable rights and obligations. If a currency is not exchangeable into another currency on the measurement date, the Group is required to estimate the spot exchange rate in such a manner that reflects the rate at which an orderly exchange transaction would take place on the measurement date between market participants under prevailing economic conditions. In this case, the Group shall disclose information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the Group's financial performance, financial position and cash flows.

As of the date the consolidated financial statements were authorized for issue, the Group assesses that the amendments to the aforementioned standards and interpretations would not have any material impact on the consolidated financial position and financial performance aside from those explained above.

c. IFRS Accounting Standard that has been issued by IASB but not yet endorsed by the FSC

IFRS 18 - "Presentation and Disclosure in Financial Statements"	January 1, 2027
IFRS 19 - "Subsidiaries without Public Accountability: Disclosures"	January 1, 2027

Note 1: Unless stated otherwise, the above New/Revised/Amended Standards and Interpretations are effective for annual periods beginning on or after their respective effective dates.

1) IFRS 18 - "Presentation and Disclosure in Financial Statements"

IFRS 18 will replace IAS 1 - "Presentation of Financial Statements"; key changes of the standard include:

- The statement of profit or loss shall classify income and expense into the following categories: operating, investing, financing, income taxes, and discontinued operations.
- The statement of profit or loss shall present subtotals and totals for: operating profit or loss, pre-tax profit or loss before financing and profit or loss.
- Provides guidelines for enhanced aggregation and disaggregation: The Group shall identify assets, liabilities, equity, income, expenses, and cash flows given rise by individual transactions or events, and classify and aggregate them based on shared characteristics, so that single-line items presented on the main financial statements have at least one shared characteristic. Items of dissimilar characteristics shall be disaggregated in main financial statements and notes. The Group will label an item as "Other" only if it is unable to find a more informative label.
- Introduction of disclosure for management-defined performance measure: When publishing financial statements or communicating with financial statement users about the management's perspective on a certain aspect of the Group's overall financial performance, the Group shall disclose, in a single note, information relating to management-defined performance measures (MPMs), including a description of MPM, the method of calculation, and a reconciliation with the subtotal or total required by IFRS Accounting Standards, including the income tax effect and the effect on non-controlling interests for each item disclosed in the reconciliation.

2) Amendments to IFRS 9 and IFRS 7 "Contracts Referencing Nature-dependent Electricity"

Contracts referencing nature-dependent electricity are those where the electricity generation source depends on uncontrollable natural factors, which results in one party of the contract assuming the risk of uncertain actual generation levels, including contracts for the purchase or sale of nature-dependent electricity or financial instruments related to such electricity. The amendments stipulate that if the Group enters into a contract for the purchase of nature-dependent electricity and is exposed to the risk of purchasing more electricity than its demand within a specific period, and the design and operation of the electricity market require the Group to sell any unused electricity within the prescribed period, such a sale may not necessarily result in the Group failing to meet the conditions of holding the contract for the purchase of electricity due to the demand of expected use of the electricity, and thus the contract should be treated as a financial instrument. If the Group will purchase an equivalent quantity of electricity in the same market within a

reasonable period after selling the electricity, it still meets the conditions of holding the contract based on the demand of expected use of the electricity.

The amendments also stipulate that if the Group enters into a contract referencing nature-dependent electricity and designates it as a hedging instrument for an expected transaction, it may designate the expected electricity transactions with variable quantities that align with the aforementioned contract as the hedged item.

The Group should retrospectively apply the contents of amendments related to judging whether contracts referencing nature-dependent electricity meet the conditions of holding the contract based on the demand of expected use of electricity, but there is no need to restate information for the comparative periods, and the impact of first adoption should be recognized on the day of first adoption. The regulations related to hedge accounting should be postponed for application.

As of the date the consolidated financial statements were authorized for issue, the Group is continuously assessing the possible impact that the application of other standards and interpretations will have on the Group's consolidated financial position and financial performance aside from those explained above, and will disclose the relevant impact when the assessment is completed.

#### 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

##### a. Statement of compliance

The consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IFRS Accounting Standard as endorsed and issued into effect by the FSC.

##### b. Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for financial instruments which are measured at fair value and net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

The fair value measurements are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- 1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities on measurement day.
- 2) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly (i.e., prices) or indirectly

(i.e., derived from prices).

3) Level 3 inputs are unobservable inputs for an asset or liability.

c. Classification standard of current and non-current assets and liabilities

Current assets include:

- 1) Assets held primarily for the purpose of trading;
- 2) Assets expected to be realized within 12 months after the reporting period; and
- 3) Cash and cash equivalents (not including the asset restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period).

Current liabilities include:

- 1) Liabilities held primarily for the purpose of trading;
- 2) Liabilities that are due to be settled within 12 months after the balance sheet date; and
- 3) Liabilities for which the Company does not have a substantive right to defer settlement for at least 12 months after the balance sheet date.

Assets and liabilities that are not classified as current are classified as non-current.

d. Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company (i.e., its subsidiaries). Income and expenses of subsidiaries acquired or disposed of during the period are included in the consolidated statement of comprehensive income from the effective dates of acquisitions up to the effective dates of disposals, as appropriate. Adjustments have been made to the financial statements of subsidiaries to bring their accounting policies in line with those of the Group. All intra-group transactions, balances, income and expenses are eliminated in full upon consolidation. The total comprehensive income of subsidiaries is attributed to the owners of the Company and the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the interests of the Group and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognized in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and any investment retained in the former subsidiary at its fair value at the date when control is lost and (ii) the assets (including any goodwill)

and liabilities and any non-controlling interests of the former subsidiary at their carrying amounts at the date when control is lost. The Group accounts for all amounts recognized in other comprehensive income in relation to that subsidiary on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

Please refer to Note 12, Tables 7 and 8 for detailed information on subsidiaries, percentages of ownership and main businesses.

e. Business combination

Business combinations are accounted for using the acquisition method. Related acquisition costs are expensed as incurred and included in expenses for the period of cost incurrence and service acquisition.

Goodwill is measured as the excess of the fair value of the consideration transferred, and the fair value of any previously held equity interests in the acquiree at the acquisition date, over the net identifiable assets acquired and liabilities assumed at the acquisition date.

f. Foreign currency

In preparing the financial statements of each individual entity, transactions in currencies other than the entity's functional currency (i.e., foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions.

Monetary items denominated in foreign currencies are retranslated at the rates prevailing on each balance sheet date. Exchange differences on monetary items arising from settlement or translation are recognized in profit or loss in the period in which they arise.

Non-monetary items denominated in foreign currencies measured at fair value are translated using the exchange rates at the date of determination of fair value. Any resulting exchange differences are recognized in profit or loss for the period. However, changes in fair value are recognized in other comprehensive income, and any resulting exchange differences are recognized in other comprehensive income (loss).

Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rate on the date of the transaction and will not be translated again.

In presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations (including subsidiaries in other countries that use currencies different from the functional currency of the Company, related business and joint ventures) are translated into the presentation currency, the New Taiwan dollar. Income and expense items are translated at the average exchange rates on the

balance sheet date. The resulting currency translation differences are recognized in other comprehensive income (and attributable to the owners and non-controlling interests of the Company respectively).

When disposing of all or part of the subsidiaries of foreign operations which resulted in losing control of the foreign operations, all cumulative exchange differences attributable to the owners of the company and related to the foreign operating institution will be reclassified to profit or loss.

But when disposing part of the subsidiaries and associates which did not result in losing control of the foreign operations, the accumulative exchange difference is reclassified proportionally to the non-controlling equity of the subsidiary, rather than recognized as profit or loss. In other disposal of foreign operations, the accumulated exchange differences will be classified as profit and loss based on its proportion.

g. Inventories

Inventories consist of raw materials, supplies, finished goods and work-in-process and are stated at the lower of cost or net realizable value. Inventory write-downs are made by item, except where it may be appropriate to Company similar or related items. Net realizable value is the balance that the estimated selling price of inventories less all estimated costs of completion and costs necessary to make the sale. Inventory costs are calculated by moving average method.

h. Investments in associates and joint ventures

Associates refer to entities in which the Group has significant influence but are not subsidiaries or joint ventures. Joint ventures refer to the agreements in which the Group and another entity jointly control the joint ventures and have rights to its net assets.

The Group investments in associates and joint ventures are accounted for using the equity method. Under the equity method, an investment in associates and joint ventures is initially recognized at cost and the carrying amount after acquisition is adjusted based on the Group's share of the profit or loss and other comprehensive income and profit distribution of associates and joint ventures. In addition, changes in the Group's interests of associates and joint ventures are recognized according to the ownership proportion.

When associates and joint ventures issue new shares, if the Group fails to subscribe according to its ownership proportion, resulting in a change in the ownership percentage and consequently causing a change in the net equity of the investment, the adjustment amount is recorded by adjusting the capital surplus. This adjustment reflects changes in the net equity of associates and joint ventures accounted for using the equity method. However, if the failure to subscribe according to the ownership proportion or acquire shares results in a decrease in the ownership interest in

associates and joint ventures, the amount previously recognized in other comprehensive income related to the associates and joint ventures is reclassified based on the decreased proportion. This accounting treatment is based on the same principles as those followed when associates and joint ventures directly dispose of relevant assets or liabilities. If such adjustments should be debited to the capital surplus, and the balance of the capital surplus generated by investments accounted for using the equity method is insufficient, the difference is debited to retained earnings.

When the share of losses incurred by the Group in related associates and joint ventures equals or exceeds its equity in such related associates and joint ventures (including the book amount of investments in related associates and joint ventures under the equity method and other long-term equity that is essentially a component of the Group's net investment in such related associates and joint ventures), further losses shall be stopped from being recognized. The Group only recognizes additional losses and liabilities within the scope of legal obligations, constructive obligations, or payments made on behalf of associates and joint ventures.

When conducting impairment assessments, the Group considers the entire carrying amount of the investment (including goodwill) as a single asset and compares it with the recoverable amount. Any impairment loss recognized is not allocated to any specific assets that make up the carrying amount of the investment, including goodwill. Any reversal of impairment losses is recognized to the extent that the recoverable amount of the investment subsequently increases.

When the Group ceases to apply the equity method to its investment in associates and joint ventures, it measures its retained interest in the former associates and joint ventures at fair value. The difference between the fair value and the disposal proceeds, if any, of the investment on the date the equity method is ceased and the carrying amount of the investment on that date is recognized in profit or loss for the period. Besides, the basis for the accounting treatment of all amounts recognized in other comprehensive income and loss related to associates and joint ventures is the same as the basis that must be followed if related assets or liabilities are directly disposed of by associates and joint ventures.

Profits and losses resulting from upstream transactions and transactions between associates and joint ventures are recognized in the accompanying financial statements only to the extent of interests in the associates and joint ventures that are not related to the Company.

i. Property, plant and equipment

Property, plant and equipment are stated at cost and, subsequently are measured at the amount of cost less accumulated depreciation and accumulated impairment losses.

Property, plant and equipment in the course of construction are carried at cost less any recognized impairment loss. Cost includes professional fees and borrowing costs

eligible for capitalization. Such assets are depreciated and classified to the appropriate categories of property, plant and equipment when completed and ready for their intended use.

Except for self-owned land that is not depreciated, other property, plant and equipment are depreciated separately for each significant portion on a straight-line basis over their useful life. The estimated useful life, residual value and depreciation methods are reviewed by the Group at least at the end of each reporting period, and the Group postpones the effect of changes in accounting estimates.

On derecognition of property, plant and equipment, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss.

j. Investment properties

Investment property refers to property held for the purpose of earning rent or capital appreciation or both (including right-of-use assets that meet the definition of investment property).

Self-owned investment property is initially measured at cost (including transaction costs), and subsequently measured at the amount of cost less accumulated depreciation and accumulated impairment loss.

The investment property acquired by lease is initially measured at cost (including the original measurement amount of the lease liability and the lease payment paid before the lease start date), and subsequently measured at cost less the accumulated amount of depreciation and accumulated impairment loss, also adjusted the re-measurement amount of the lease liability.

All investment property is depreciated on a straight-line basis.

Investment properties are reclassified to property, plant, and equipment and right-of-use assets at their carrying amount on the date they are transferred from investment properties to self-use.

Property, plant, and equipment are reclassified to investment properties at their carrying amount on the date they are transferred from self-use.

When investment property is de-recognized, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit and loss.

k. Goodwill

Goodwill acquired through business combinations is initially recognized at the amount of goodwill on the acquisition date as the cost. Subsequently, it is measured at cost less accumulated impairment losses.

For impairment testing purposes, goodwill is allocated to cash-generating units or groups of cash-generating units (referred to as "cash-generating units") of the Group that are expected to benefit from the synergies of the combination.

The cash-generating unit with goodwill undergoes impairment testing annually (and when there are indications that the unit may have been impaired) by comparing the carrying amount of the unit, including goodwill, with its recoverable amount. If the goodwill allocated to the cash-generating unit arises from a business combination in the current year, the unit should conduct impairment testing before the end of the current year. If the recoverable amount of the cash-generating unit with goodwill is less than its carrying amount, the impairment loss is firstly allocated to reduce the carrying amount of the goodwill allocated to the cash-generating unit, and then proportionally reduce the carrying amounts of other assets within that unit. Any impairment loss is recognized as an expense in the current period. Impairment loss to goodwill shall not be reversed in subsequent periods.

When disposing of a cash-generating unit with goodwill, the amount of goodwill related to the disposed operation is included in the carrying amount of the operation to determine the gain or loss on disposal.

1. Intangible assets

1) Separate acquisition

Intangible assets with finite useful lives that are acquired separately are initially measured at cost and subsequently measured at the amount of cost less accumulated amortization and accumulated impairment loss. Intangible assets are amortized on a straight-line basis over their useful life. The estimated useful life, residual value, and amortization method are reviewed by the Group at least at the end of each reporting period, and the Group postpones the effect of changes in accounting estimates. Intangible assets with indefinite useful lives are reported at cost less accumulated impairment losses.

2) Acquisition through business combination

Intangible assets acquired through business combinations are recognized at fair value as of the acquisition date and are separately recognized from goodwill. Subsequent measurement is consistent with intangible assets acquired separately.

3) Derecognition

On derecognition of an intangible asset, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in the current profit or loss.

m. Impairment of property, plant and equipment, right-of-use asset, investment property and intangible assets (except goodwill)

On each balance sheet date, the Group reviews the carrying amounts of its property, plant and equipment, right-of-use asset, investment property and intangible assets (except goodwill) to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. When it

is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Shared assets are allocated to the smallest group of cash-generating units on a reasonable and consistent basis of allocation.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually.

The recoverable amount is the higher of fair value less costs of sale and value in use. If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount, with the resulting impairment loss recognized in profit or loss.

When an impairment loss is subsequently reversed, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but only to the extent of the carrying amount (less amortization or depreciation) that would have been determined to have no impairment loss recognized on the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized in profit or loss.

n. Non-current assets available for sale

Non-current assets are classified as available for sale when their carrying amounts are expected to be recovered primarily through a sale transaction rather than continued use. Non-current assets that qualify for this classification must be available for immediate sale in their current state and must be highly likely available for sale. A non-current asset is highly likely available for sale when an appropriate management level commits to a plan to sell the asset and the sale is expected to be completed within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell, and depreciation is ceased for such assets.

o. Financial instruments

Financial assets and financial liabilities are recognized in the consolidated balance sheet when the Group becomes a party to the contractual provisions of the instruments.

When financial assets and financial liabilities are initially measured, in case financial assets and financial liabilities are not measured at FVTPL, they are measured with the fair value added to transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized immediately in profit or loss.

1) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

(1) Measurement categories

Financial assets held by the Group are classified into the following categories: financial assets at FVTPL, financial assets at amortized cost, and investments in equity instruments at FVTOCI.

A. Financial assets at FVTPL

Financial assets at FVTPL are financial assets mandatorily classified at FVTPL. Financial assets mandatorily classified at FVTPL include investments in equity instruments which are not designated as at FVTOCI and derivative instruments and fund beneficiary certificates that do not meet the criteria to classify as at amortized cost or at FVTOCI.

Financial assets at FVTPL are measured at fair value, with the generated dividends and interest recognized in other income and interest income respectively, and with the profits or losses arising from remeasurement are recognized in other profits and losses. Please refer to Note 32 for the method of determining the fair value.

B. Financial assets at amortized cost

The Group's financial assets that meet the following conditions are subsequently measured at amortized cost:

- a) The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- b) The contractual terms of the financial asset give rise on cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding.

Subsequent to initial recognition, financial assets at amortized cost, (including cash and cash equivalents, notes receivable at amortized cost, accounts receivable, other receivables, pledged time deposit and refundable deposits) are measured at amortized cost, which equals to gross carrying amount determined by the effective interest method less any impairment loss. Exchange differences are recognized in profit or loss.

Except for the following cases, the interest income is calculated by applying the effective interest rate to multiply the gross carrying amount of a financial asset:

- a) For credit-impaired financial assets purchased or initiated, the interest income is calculated based on the adjusted effective interest rate multiplying the amortized cost of the financial asset.

- b) For the financial assets that are not purchased or initiated, but subsequently become credit-impaired, the interest income shall be calculated based on the effective interest rate multiplying the amortized cost of the financial asset from the next reporting period after the credit impairment.

Credit-impaired financial assets refer to the issuer or debtor who has major financial difficulties, defaults, and the debtor is likely to apply for bankruptcy or other financial restructuring, or the active market for financial assets disappear due to financial difficulties.

Equivalent cash includes time deposits and reserve repurchase agreements collateralized by bonds which are highly liquid, readily convertible to a known amount of cash, and are subject to an insignificant risk of changes in value. These cash equivalents are held for the purpose of meeting short-term cash commitments.

#### C. Investments in equity instruments at FVTOCI

On initial recognition, the Group may make an irrevocable election to designate investments in equity instruments as at FVTOCI, if the equity investment is not held for trading or if it is not contingent consideration recognized by an acquirer in a business combination.

Investments in equity instruments at FVTOCI are measured at fair value, and subsequently gains and losses arising from changes in fair value are recognized in other comprehensive income and accumulated in other equity. The cumulative gains or loss will not be reclassified to profit or loss on disposal of the equity investments; instead, they will be transferred to retained earnings.

Dividends on these investments in equity instruments at FVTOCI are recognized in profit or loss when the Group's right to receive the dividends is established unless the dividends represent a recovery of part of the cost of the investment.

#### (2) Impairment of financial assets

The Group recognizes a loss allowance for expected credit losses on financial assets at amortized cost (including account receivables) on each balance sheet date.

The Group always recognizes lifetime expected credit losses for the amount receivables as losses allowance. For other financial assets, the Group evaluates if there has been a significant increase in credit risk since initial recognition. If the credit risk on the financial asset has not increased significantly, the Group recognizes the loss allowance for that financial asset at an amount equal to 12-month expected credit losses. If

there is a significant increase, the Group recognizes the lifetime expected credit losses accordingly.

Expected credit losses reflect the weighted average of credit losses with the respective risks of default occurring as the weights. Lifetime ECLs represent the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECLs represent the portion of lifetime ECLs that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

For the purpose of internal credit risk management, the Group determines, in the following situations, that the default of financial assets has occurred without considering the collateral held by it:

- A. Internal or external information show that the debtor is unlikely to pay its creditors.
- B. After overdue for certain days, unless there is reasonable and corroborative information showing that it will be more appropriate to postpone the default criteria.

The impairment loss of all financial assets is recognized in profit or loss by a reduction in their carrying amounts through a loss allowance account.

### (3) Derecognition of financial assets

The Group derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset at amortized cost in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss. Upon derecognition of investments in equity instruments at FVTOCI as a whole, the accumulated gains and losses are directly transferred to retained earnings and are not reclassified in profit and loss.

## 2) Equity instruments

Debt and equity instruments issued by the Group are classified as either financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments issued by the Group are recognized at the proceeds received less the cost of direct issuance.

Reacquiring the Group's own equity instruments is recognized and deducted under equity. The purchase, sales, issuance or cancellation of the same above is not recognized as the profit or loss.

3) Financial liabilities

(1) Subsequent measurement

Except for financial liabilities at FVTPL, all financial liabilities are measured at amortized cost using the effective interest method.

Financial liabilities at FVTPL are financial liabilities held for trading. Related profits or losses are recognized in other profits and losses. Please refer to Note 32 for the method of determining the fair value.

(2) Derecognition of financial liabilities

The difference between the carrying amount of the financial liability derecognized and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

4) Derivatives

The derivatives signed by the Group are forward foreign exchange contracts used to manage the Group's exchange rate risk.

Derivatives are initially recognized at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in profit or loss immediately. When the fair value of a derivative is positive, the derivative is recognized as a financial asset; when the fair value of a derivative is negative, the derivative is recognized as a financial liability.

p. Provisions

Amounts recognized as provisions are based on the best estimate of the expenditure required to settle the obligation, taking into account the risks and uncertainties associated with the obligation as of the balance sheet date. Provisions are measured at the present value of the estimated future cash flows required to settle the obligation.

q. Revenue recognition

The Group identifies contracts with the customers, allocates the transaction price to the performance obligations, and recognizes revenue when performance obligations are satisfied. Refund liabilities are recognized based on past experience and other relevant factors to reasonably estimate future refund amounts.

1) Revenue from the sale of goods

The Group's revenue from the sale of goods mainly comes from sales of polyethylene plastic pellets and related plastic products. When the goods start shipping or are delivered to the customer location, the customer has full discretion to set the price and use of the goods, has the main responsibility for resale, and bears the risks of obsolescence, the Group should recognize revenue and accounts receivable at that time point. The advance receipts for sales of products are recognized as contract liabilities.

When the material is removed for processing, the control of the ownership of the processed product has not been transferred, so the revenue is not recognized when the material is removed.

2) Service revenue

Service revenue arises from providing storage and transportation services for various petrochemical raw materials entrusted to us, and related service revenue is recognized when the service is provided.

r. Lease

At the inception of a contract, the Group assesses whether the contract is a (or includes) lease.

1) The Group as lessor

Leases are classified as finance leases whenever the terms of a lease transfer are substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

When the Group subleases the right-of-use asset, it uses the right-of-use asset (not the underlying asset) to determine the classification of sublease. However, if the main lease is a short-term lease for which the Group applies the recognition exemption, the sublease is classified as an operating lease.

Lease payments from operating leases are recognized as income on a straight-line basis over the terms of the relevant leases.

Rental income from leasing agreements not dependent on variable rates is recognized as revenue when it is earned.

2) The Group as lessee

The Group recognizes right-of-use assets and lease liabilities for all leases at the commencement date of a lease, except for short-term leases and low-value asset leases accounted for applying a recognition exemption where lease payments are recognized as expenses on a straight-line basis over the lease terms.

The right-of-use asset is initially measured at cost (including the original measured amount of the lease liability and the lease payment paid before the lease start date), and subsequently measured at the amount after the cost less

the accumulated depreciation, and the remeasured amount of the lease liability is adjusted. Except for those that meet the definition of investment property, the right-to-use assets are separately expressed on the Group balance sheets. For the recognition and measurement of right-of-use assets that meet the definition of investment property, please refer to the above (j) Accounting Policy for Investment Property.

Right-of-use assets are depreciated using the straight-line basis from the commencement dates to the earlier of the end of the useful lives of the right-of-use assets or the end of the lease terms.

Lease liabilities are initially measured at the present value of the lease payments (which comprise fixed payments, in-substance fixed payments, and lease payments depending on changes in rates). The lease payments are discounted using the interest rate implicit in a lease if that rate can be readily determined. If that rate cannot be readily determined, the Group uses the lessee's incremental borrowing rate.

Subsequently, lease liabilities are measured at amortized cost using the effective interest method, with interest expense recognized over the lease terms. When there is a change in a lease term or how to determine the rental payment rate leading to a change in future lease payments, the Group remeasures the lease liabilities with a corresponding adjustment to the right-of-use- assets. However, if the carrying amount of the right-of-use assets is reduced to zero, any remaining amount of the remeasurement is recognized in profit or loss. Lease liabilities are presented on a separate line in the consolidated balance sheets.

Rental income from leasing agreements not dependent on variable rates is recognized as expenses when it is incurred.

s. Borrowing costs

Borrowing costs directly attributable to an acquisition, construction or production of qualifying assets are added to the cost of those assets, until the time when the assets are substantially ready for their intended use or sale. Other than the above-stated, all other borrowing costs are recognized in profit or loss in the period in which they are incurred.

t. Government subsidy

Government subsidies are recognized only when it is reasonably certain that the Group will comply with the conditions attached to the government subsidies and will receive such subsidies.

Government subsidies related to income are recognized in profit and loss on a systematic basis during the period when the relevant costs that they intend to

compensate are recognized as expenses by the Group. Government subsidies conditional upon the acquisition, construction, or other means of obtaining non-current assets by the Group are recognized as deferred income and systematically allocated to profit or loss over the useful life of the related assets on a reasonable and systematic basis.

If the government subsidy is used to compensate for expenses or losses that have occurred or for the purpose of providing the Group with immediate financial support and there is no future related cost, it is recognized in the profit and loss during the period when it can be received.

The difference between the amount of the government loans obtained by the Group at below-market interest rates and their fair value calculated at the prevailing market interest rates is recognized as a government subsidy.

u. Employee benefits

1) Short-term employee benefits

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

2) Retirement benefits

Payments to defined contribution retirement benefit plans are recognized as expense when employees have rendered services entitling them to the contributions.

Defined benefit costs (including service cost, net interest and remeasurement) under the defined benefit retirement benefit plans are determined using the projected unit credit method. Service cost and net interest on the net defined benefit liability (asset) are recognized as employee benefits expense in the period they occur. Remeasurement (comprising actuarial gains and losses, and the return on plan assets excluding interest) is recognized in other comprehensive income in the period in which it occurs. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss.

Net defined benefit liabilities represent the actual deficit in the Group's defined benefit plans.

v. Share-based payment arrangements

Share-based payment agreements granted to employees by the Group are measured at the fair value of the equity instruments on the grant date.

Employee stock options are recognized as expenses on a straight-line basis over the vesting period based on the fair value of the equity instruments on the grant date and the best estimate of expected quantities to be received, with simultaneous adjustment of non-controlling interests. If fully vested on the grant date, the entire expense is recognized on that date.

The Group revises the estimated quantity of employee stock options expected to vest at each balance sheet date. If there is a revision to the original estimate, the impact is recognized in profit or loss, adjusting the cumulative expense to reflect the revised estimate, and correspondingly adjusting non-controlling interests.

w. Income tax

The income tax expense represents the sum of the tax currently payable and deferred tax.

1) Current tax

The Group determines the current income (loss) in accordance with the laws as well as regulations established by the income by the tax reporting jurisdiction and calculates the payable (recoverable) income tax accordingly.

According to the Income Tax Act, an additional tax on unappropriated earnings is provided for as income tax in the year of the shareholder meetings.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

2) Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences and loss deductions.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. A previously unrecognized deferred tax asset is also reviewed at the end of each balance sheet date and recognized to the extent that it has become probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liabilities are settled or the assets are realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the balance sheet, to recover or settle the carrying amount of its assets and liabilities.

3) Current tax and deferred tax for the year

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income; in which case, the current and deferred taxes are also recognized in other comprehensive income.

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION AND UNCERTAINTY

In the application of the Group's accounting policies, management is required to make judgments, estimations and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experiences and other factors that are considered relevant. Actual results may differ from these estimates.

Key Sources of Estimation and Uncertainty

a. Estimated impairment of accounts receivable

The estimation of bad debt provision for accounts receivable is based on the Group's assumptions regarding default rates and expected loss rates. The Group considers historical experience, current market conditions, and forward-looking information to form assumptions and select input values for impairment assessments. If future actual cash flows are less than expected, the Group may incur significant impairment losses. Please refer to Note 10 for the significant assumptions, input values, and carrying amounts used by the Group.

b. Inventory impairment

Inventory must be valued at the lower of cost and net realizable value. Therefore, the Group must exercise judgment and estimation to determine the net realizable value of inventory at the end of the reporting period. The Group assesses the amount of inventory at the end of the financial reporting period due to normal wear and tear, obsolescence, or lack of market sales value, and reduces the inventory cost to net realizable value. This inventory valuation is primarily based on historical sales experience of the products and estimates of product demand for specific periods in

the future, thus significant fluctuations may occur. Please refer to Note 11 for the carrying amounts of the Group's inventory.

c. Estimate of compensation for the subsidiary's gas explosion incident

As for the civil damages incurred by the gas explosion of the subsidiary, China General Terminal & Distribution Co., (CGTD) which is recognized as a liability provision, the management estimates the amount of the liability provision by taking into account the progress of civil and criminal proceedings and settlements as well as the legal advice. However, actual results may differ from current estimates. Please refer to Note 35 for a detailed description.

6. CASH AND CASH EQUIVALENTS

	December 31, 2024	December 31, 2023

Buy	JPY/USD	2024.01.26-2024.02.22	JPY 120,000 / USD	817

The Group entered into foreign exchange forward contracts to manage exposures to exchange rate fluctuations of foreign currency denominated assets and liabilities. However, those contracts did not meet the criteria of hedge effectiveness, and therefore, the Group did not apply hedge accounting treatments for derivative contracts.

For information on pledged financial instruments at FVTPL, please refer to Notes 34 and 35.

## 8. FINANCIAL ASSETS AT FVTOCI

	December 31, 2024	December 31, 2023
<u>Current</u>

	<u>232,000</u>	<u>167,702</u>
	<u>\$ 1,995,079</u>	<u>\$ 2,127,088</u>

The Group has invested in domestic and foreign listed (OTC) and emerging companies and unlisted (OTC) companies shares for medium- to long-term strategic purposes, and expects to generate returns over the long term. Accordingly, the management elected to designate these investments in equity instruments as at FVTOCI as it believes that recognizing short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the Group's strategy of holding these investments for long-term purposes.

The Group sold investments in equity instruments as at FVTOCI for the years ended December 31, 2024 and 2023. The related other equity - the unrealized gain and loss of financial assets measured at FVTOCI amounted to a gain of NT\$476 thousand and a loss of NT\$5,095 thousand, respectively. These amounts were transferred to retained earnings.

For the years ended December 31, 2024 and 2023, the Group recognized NT\$92,424 thousand and NT\$97,871 thousand of dividend income, respectively.

#### 9. FINANCIAL ASSETS AT AMORTIZED COST

Bank fixed-term deposits with a maturity over 12 months	2.15%~3.05%	-

Pledged time deposits represent deposits pledged as collateral for the gas explosion incident and subjected to third-party applications for court seizure and execution.

Constricted time deposits represent surplus funds repatriated by subsidiaries, for which the Group had filed an application in accordance the Management, Utilization and Taxation for Patriated Offshore Funds Act and received approval to repatriate the funds from the Ministry of Finance in 2020, and deposited the net value after tax to the foreign currency deposit account. The deposit is limited for free utilization by laws and regulations that a three-year withdrawal is not permitted until five years after the deposit, except for financial investment or physical investments with partially free utilization by law.

Please refer to Notes 34 and 35 for information related to financial assets at amortized cost.

a. Notes and accounts receivable

The average credit period of sales of goods was 10 to 180 days. No interest was charged on the receivables.

In order to minimize credit risk, the management of the Group has delegated a team responsible for determining credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. Before accepting a new customer, the Group surveys the customers' credit history and measures the potential customer's credit quality to grant a credit term. A customer's credit term and rating are reviewed annually. In addition, the Group reviews the recoverable amount of each individual trade debt on the balance sheet date to ensure that adequate allowance is made for possible irrecoverable amounts. In this regard, the management believes the Group's credit risk was significantly reduced.

The Group measures the loss allowance for trade receivables at an amount equal to lifetime expected credit losses (ECLs). ECLs over the life period are calculated using a reserve matrix, which takes into account the customer's past default record and current financial condition, industry economic situation and industry outlook.

The Group writes off a trade receivable when there is information indicating that the debtor is experiencing severe financial difficulty and there is no realistic prospect of recovery. For trade receivables that have been written off, the Group continues to engage in enforcement activity to attempt to recover the due receivables. Where recoveries are made, they are recognized in profit or loss.

The following table details the loss allowance of notes receivables and trade receivables based on the Group's allowance matrix.

- 1) The management of TTC decided to suspend the main production of expanded polystyrene (EPS) by TTC (TJ) from April 2019 due to the assessment of the demand reduction of its subsidiary TTC (TJ) in the local market. Please refer to Note 14 for relevant explanation.
- 2) USII acquired 0.9% and 0.2% equity from external shareholders of SPC in 2024 and 2023 based on medium and long-term investment strategies and the cost of acquisition amounted to NT\$17,822 thousand and NT\$4,361 thousand, respectively.
- 3) On June 14, 2022, the board of directors of ACME resolved to issue 3,000 thousand new shares at NT\$10 each for cash. The aforementioned cash capital increase was approved and reported by the FSC on July 22, 2022, with an issue price of NT\$20 per share and a capital increase base date on January 16, 2023. The Group participated in the cash capital increase of 18,702 thousand shares

of ACME with an amount of NT\$374,033 thousand, and its shareholding increased from 44.6% to 47.2% after the cash capital increase. As these transactions did not change the Group's control over the subsidiary, it is deemed as an equity transaction. Differences generated from the aforementioned equity transaction were adjusted to decrease in capital surplus of NT\$1,736 thousand and retained earnings of NT\$54,215 thousand, respectively.

- 4) In April 2023, the board of directors of ACME (Cayman) resolved to increase a cash capital of US\$9,000 thousand, which was fully subscribed by ACME. After the Group participated in the cash capital increase, its shareholding increased from 96.4% to 97.0%. As these transactions did not change the Group's control over the subsidiary, it is deemed as an equity transaction. Differences generated from the aforementioned equity transaction were adjusted to increase in capital surplus of NT\$947 thousand and a decrease in retained earnings of NT\$580 thousand. In addition, in February and November 2024, the board of directors of ACME (Cayman) passed a resolution to organize a cash issue of US\$6,000 thousand, respectively, for which the existing shareholders will subscribe at their current shareholding percentages. The Group's shareholding percentage in the entity is 97.0% before and after the cash issue.
- 5) On May 22, 2023, the board of directors of USIGE resolved to issue 28,741 thousand ordinary shares for cash, for which the existing shareholders will subscribe at their current shareholding percentages.
- 6) The board of directors resolved to liquidate CGPC (CP) and finalized its dissolution and liquidation procedures on July 17, 2023.
- 7) In accordance to sell the products produced by Gulei, the board of directors of our company resolved on August 3, 2023 to establish a Xiamen joint venture company, XUL in Fujian Province, China. The company completed registration on November 6, 2023, established a capital of RMB10,000 thousand, and completed the capital verification on December 21, 2023. The capital was invested by Swanlake and APC (BVI) on December 14, 2023 in the amount of RMB7,000 thousand and RMB3,000 thousand, respectively.
- 8) On November 7, 2023, the Company's board of directors approved the investment by Investment DEIL to establish DEIP. The registration for establishment was completed on August 29, 2023, with a registered capital of RMB 21,000 thousand. DEIL completed its capital injection on September 27, 2023, and the verification of capital was completed on October 19, 2023.

- 9) Because of the under achievement of the expected target, the board of directors resolved to dissolve and liquidate USIG on August 8, 2023, and finalized its dissolution and liquidation procedures on December 1, 2023.
  - 10) To improve the financial structure and activate the company's capital utilization, INOMA Corporation passed the resolution of the extraordinary shareholders' meeting on November 30, 2023 to reduce capital with the aim to cover losses of NT\$83,806 thousand, cancel the issued shares of 8,381 thousand shares. The capital reduction ratio was 85.56%, and the base date for it was December 6, 2023. After the capital reduction, the paid-in share capital of INOMA Corporation was NT\$14,144 thousand. INOMA Corporation resolved to undergo liquidation on March 7, 2024. As of the date of approval of these consolidated financial statements, the liquidation process of INOMA Corporation has not been completed.
  - 11) ACME (MA) founded ACME Advanced in January 2024. ACME Advanced's main business activities of the newly founded entity are the production and sale of silicon carbide for communication, information, consumer electronics, and auto electronics.
  - 12) TUVV held annual general meetings on June 5, 2024 and June 28, 2023, during which the shareholders passed resolutions to refund capital in cash; the baseline dates for capital reduction were set at June 18, 2024 and August 22, 2023, and the Group recovered capital totaling NT\$78,327 thousand and NT\$133,155 thousand in June 2024 and August 2023, respectively.
  - 13) On July 29, 2024, the board of directors of STC passed a resolution to incorporate STKC for the distribution of SPC products, and completed registration on September 29, 2024. Share capital of this new entity was RMB 3,000 thousand. STC completed its capital injection on November 7, 2024, and the verification of capital was completed on November 22, 2024.

Investments in joint venture are accounted for using the equity method.

a. Associates that are individually material - Gulei

The Company and APC entered into a joint venture contract for an investment of Fujian Gulei Petrochemical Co., Ltd. on April 17, 2014. The related entities of the contract or commitments are Ho Tung Chemical Corporation, LCY Chemical Corporation, HsinTay Petroleum Company Limited, Chenergy Global Corporation and Lien Hwa Industrial Corporation. The main contents of the contract and commitments include: (a) the shareholders shall establish Ever Victory Global Limited (hereinafter referred to as "EVGL") and agree to pass the establishment of the 100%-owned company named Dynamic Ever Investments Limited (hereinafter referred to as "DEIL") in Hong Kong, whose purpose is to build oil refineries and produce seven products such as ethylene on the Gulei Peninsula in Zhangzhou, Fujian Province, as approved by the competent authorities of the Republic of China and according to the business operation permitted by the Joint Venture's board of directors; (b) DEIL shall establish a joint venture company with Fujian Petrochemical Chemical Co., Ltd. to operate the target business in Gulei Industrial Park, Zhangzhou, Fujian Province (hereinafter referred to as "Gulei") in accordance with the laws and regulations of the People's Republic of China and shall acquire 50% of the issued shares of Gulei as the basis for the joint investment.

DEIL and Fujian Refining and Chemical Co. signed "Fujian Gulei Petrochemical Corporation Limited Joint Venture Contract" which stipulated an increase in the investment amount, and this contract led to part of the original related contract entities being unable to keep their respective investment ratios as provided by the original contract or to participate in the subsequent capital increase procedures. In order to meet the business requirement of the original contract, the Company and APC resigned the joint venture contract on September 30, 2016 and added a new contractually promised related entity, CTCI Corp. On December 18, 2019, the Company and APC again resigned the joint venture contract and added new contractually promised related entities, Fubon Financial Holding Venture Capital Corporation and Hongfu Investment Co., Ltd.

In order to enrich the working capital of Gulei, EVGL signed a joint venture agreement with the Hong Kong-based company DOR PO INVESTMENT COMPANY LIMITED (hereinafter referred to as "DOR PO") on June 5, 2019 to jointly invest in Xutent. In accordance with the terms of the joint venture agreement, DOR PO shall contribute US\$109,215 thousand to increase the capital of DEIL, of which US\$103,915 thousand had been contributed as of December 31, 2024 to acquire 15% equity in DEIL.

As of December 31, 2024, the Company and APC had invested US\$246,670 thousand (around NT\$7,645,981 thousand) and US\$170,475 thousand (around NT\$5,255,587 thousand) in ECGL, respectively, and reinvested in EVGL via ECGL as well as in DEIL. The total ownership percentage of the Group in EVGL is 67.4%. DEIL has invested capital amounted to RMB 4,657,200 thousand in Gulei.

The percentage of the Group's ownership and voting rights were 50% of the outstanding shares of Gulei as of December 31, 2024 and 2023.

For the scope of business operations, the location and national information of Gulei's registry of joint venture, please refer to Table 8.

The summary of financial information below represents amounts shown in the joint venture's financial statements prepared in accordance with IFRS accounting standards adjusted by the Group for equity accounting purposes.

b. Summarized information of associates that is not individually material

The Company's board of directors approved the establishment of Chem Union Renewable Energy Corporation (CURE), a joint venture with Chang Chun Petrochemical Co., Ltd. and Chimei Corporation on November 3, 2022. CURE will purchase offshore wind power in an integrated manner to achieve the Group's carbon neutrality plan. In December 2022, the Company invested NT\$10,000 thousand in CURE. On April 13, 2023, the Company completed the registration of the establishment of CURE with a registered capital of NT\$30,000 thousand and the Company holds 33.3% of the shares of CURE.

In accordance with the New Taipei City Government Letter Development No. 1072133080 dated November 7, 2018, the land and buildings of the Company located in Linkou are within the scope of "Urban Land Redeveloping Zone at 1st Industrial Park in Linkou District." The land has been delivered for redevelopment and returned on May 2, 2023. On August 8, 2024, the board of directors passed a resolution to construct an innovative R&D center by commissioning an outside contractor.

In cooperation with the Taiwan International Ports Corporation, Ltd. (Ports Co.), Ministry of Transportation and Communications, to relocate the petrochemical oil storage tank facilities of the old port area operators, CGTD leased the port facilities and storage areas of the Kaohsiung Port Intercontinental Container Center Second Phase Petrochemical Oil Storage and Transportation Center from Ports Co., the lease period being from August 1, 2017 to July 31, 2042, rent paid quarterly. In addition, the board of directors of the Company, CGTD, APC, and TVCM resolved in 2019 to build the second phase of the

Intercontinental Petrochemical Oil Products Center. As of December 31, 2024, the Group had paid a total of NT\$2,827,173 thousand for the project.

Due to the shrinking demand for EPS in the local market, the main product of TAITA (TJ), the management decided to suspend the production of TAITA (TJ) starting from April 2019. TAITA (TJ) determined the recoverable amounts of the property, plant and equipment (including right-of-use assets), on the basis of fair values less costs of disposal. The fair value was measured by Level 3 inputs as of December 31, 2024 and 2023 by an independent appraisal company. The assessment was a revaluation of the replacement cost and economic useful life of the property, plant and equipment within the assessment scope. As evaluated by the management of the Group, there was no significant change in fair value as of December 31, 2024 and 2023.

The Group recognized impairment losses of NT\$4,343 thousand for the year ended December 31, 2024 on idle assets that were no longer needed for production. Recoverable value of such equipment was determined based on the estimated disposal value, which was considered a Level 3 fair value input.

SPC had completed the construction and acceptance of the plant before the end of 2022, which is expected to be sold and transferred in the future, thus transferring NT\$178,157 thousand of relevant buildings and structures to non-current assets available for sale. The disposal was completed in October 2023.

The property, plant and equipment of the Group are depreciated on a straight-line basis over their estimated useful lives as follows:

Land improvements	7 -20 years
Buildings and Improvements	
Plant, machine room and improvements	2 -55 years
Office building, labs and improvements	10 -50 years
General plants and improvements	3 -60 years
Others	2 -45 years
Machinery and Equipment	2 -26 years
Transportation equipment	2 -10 years
Other equipment	2 -25 years

For property, plant and equipment pledged as collateral for bank borrowings, please refer to Note 34.

For the related capitalized interest, please refer to Note 27 (d) finance cost.

Except for the additions and recognition of depreciation expense described above, the Group both received the letter from Ports Co. in January 2025 and December 2023, explaining that based on the terms of the lease agreement for the S14 port and storage areas of the Kaohsiung Port Intercontinental Container Center Second Phase Construction Project Petrochemical Oil Storage and Transportation Center, the lease payments was adjusted for the years ended December 31, 2024 and 2023 due to the Taiwan region's construction cost index announced by the Directorate General of Budget, Accounting and Statistics of the Executive Yuan reaching the agreed threshold. As a result, the Group remeasured the changes in lease payments according to accounting policies, and the remeasured amount of lease liabilities was correspondingly adjusted to the right-of-use assets. The adjustments for the years ended December 31, 2024 and 2023 were increased by NT\$31,202 thousand and NT\$29,036 thousand, respectively.

The Group's right-of-use assets did not experience significant sub-lease or impairments for the years ended December 31, 2024 and 2023.

The Group leases the office in Taipei and sublets it to another company on an operating lease basis. The related right-of-use assets are presented as investment properties, and please refer to Note 16. The amounts disclosed above with respect to the right-of-use assets do not include right-of-use assets that meet the definition of investment properties.

The Group's right-of-use assets pledged as collateral for bank borrowings are set out in Notes 18 and 34.

c. Material lease-in activities and terms

The Group leases buildings for use as factories, offices, dormitories and R&D centers with lease terms of 3 to 21 years. The Group has options to lease office at the end of the lease terms.

The lease agreements for certain land use rights stipulate that starting from the year following the commencement of the lease, the rent will be adjusted every January 1st based on the Taiwan region's annual construction cost index as published in the monthly price statistics report by the Directorate General of Budget, Accounting and Statistics of the Executive Yuan. The adjustment will be based on the percentage change between the index of the previous calendar year and the index of the second-to-last calendar year, with the adjustment capped at 3%.

d. Other lease information

For lease arrangements under operating leases for leasing out of investment properties, please refer to Note 16. For details of lease information, please refer to the following table (the Group as lessee):

	For the Year Ended December 31, 2024	For the Year Ended December 31, 2023
Expenses relating to short-term leases	\$ 54,541	\$ 50,210
Expenses relating to low-value asset leases	\$ 323	\$ 396

The investment property is the sublease of the Group's free-held and leased offices in Taipei to other companies on an operating lease for a period of 2 to 6 years with an option to extend the lease. The lease contracts contain market review clauses in the event that the lessees exercise their options to extend.

The total amount of lease payments to be collected in the future for investment property as operating lease as of December 31, 2024 and 2023 is as follows:

	December 31, 2024	December 31, 2023
Year 1	\$ 91,625	\$ 75,668

	<u>\$ 379,591</u>	<u>\$ 221,917</u>

Except for the recognition of depreciation expense, the Group's investment properties did not experience significant additions, disposals, and impairments for the years ended December 31, 2024 and 2023.

The above items of investment properties are depreciated on a straight-line basis over their estimated useful lives as follows:

Buildings	5 -50 years
Right-of-use assets	3 -50 years

Part of the Group's investment properties is located in the Toufen and Linyuan Industrial District. As these districts are designated for industrial use, the information on comparable market transactions are uncommon and alternative reliable measurements of the fair value estimates are not available. The fair values of the remaining investment properties were not assessed by independent appraisers; instead, they were arrived at by referring the transaction prices of similar properties in the vicinity by the Group's management. The fair value of right-of-use assets was determined by adding back the amount of related lease liabilities recognized to the net amount of the expected lease income after deducting all the expected payments.

The fair values of investment properties as of December 31, 2024 and 2023 are as follows:

23. RETIREMENT BENEFIT PLANS

a. Defined contribution plans

Within the Group, the company and subsidiaries adopted a pension plan under the "Labor Pension Act" of ROC (the "LPA"), which is a defined contribution plan. Based on the LPA, the Company makes monthly contributions to employees' individual pension accounts in the Bureau of Labor Insurance at 6% of monthly salaries and wages. In addition, foreign subsidiaries have established employee retirement plans in accordance with local regulatory authorities' requirements.

b. Defined benefit plans

Within the Group, the Company and subsidiaries with the pension mechanism under the "Labor Standards Act" are considered as defined benefit plans under where it is paid based on average salary of 6 months prior to the approved retirement day and seniority. The Company allocates retirement benefits at 12% of employees' total monthly salaries and subsidiaries allocate retirement benefits based on specific proportions of employees' total monthly salaries (TTC and CGTD at 12%; APC, CGPC, and TVCM at 10%; SPC at 3.5%; ACME, TUSII, UM, and TUVVM at 2%), which are deposited into a dedicated account at the Bank of Taiwan under the name of the Labor Pension Fund Supervisory Committee. The plan assets are held in a commingled fund which is operated and managed by the government's designated authorities; as such, the Group does not have any right to intervene in the investments of the funds.

The Group is exposed to the following risks for the defined benefits plans under the "Labor Standards Act":

- 1) Investment risk: Through its use and entrusting operation, the Bureau of Labor Funds, MOL invested labor pension funds in domestic (foreign) equity and debt securities and bank deposits. The Group allocated amounts of the plan assets shall not be lower than the gain calculated by the average interest rate on a two-year time deposit.
- 2) Interest rate risk: The decline in government bond interest rate will increase the present value of the obligation on the defined benefit plan, while the return on plan assets will increase. The net effect on the present value of the obligation on defined benefit plan is partially offset by the return on plan assets.
- 3) Salary risk: Present value of defined benefit obligations is calculated from future salary of member participants. Hence, the increase in plan participants' salary will increase the present value of the defined benefit obligation.

The present value of the defined benefit obligation of the Group was calculated by the independent actuary and material assumptions on the measurement date were as follows:

	December 31, 2024	December 31, 2023
Discount rate	1.38%~1.50%	1.00%~1.25%
Expected rates of salary increase	2.25%~3.25%	2.25%~3.25%

If reasonably possible changes of the respective significant actuarial assumptions occur, while holding all other assumptions constant, the present value of the defined benefit obligation would increase (decrease) as follows:

	December 31, 2024	December 31, 2023
Discount rate		
Increase 0.25%	( \$ 34,828 )	( \$ 40,899 )
Decrease 0.25%	\$ 35,768	\$ 42,034
Expected rates of salary increase		
Increase 0.25%	\$ 34,726	\$ 40,748
Decrease 0.25%	( \$ 33,988 )	( \$ 39,854 )

The sensitivity analysis presented above may not be representative of the actual change in the present value of the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

	December 31, 2024	December 31, 2023
The expected contributions to the plan for the next year	\$ 104,487	\$ 97,376
The average duration of the defined benefit obligation	3-15 years	4-10 years

#### 24. GOVERNMENT SUBSIDY

Acme Electronics (Kunshan) reached an agreement with Kunshan Zhoushizhen People's Government in 2006 in which Acme Electronics (Kunshan) Co., Ltd. promised to relocate its new plant and raise its investment amount. Furthermore, Kunshan Zhoushizhen People's Government subsidized Acme Electronics (Kunshan)'s acquisition of the land for its new plant and the external line project for high voltage power during the relocation process. Acme Electronics (Kunshan) recognized the subsidy amount as long-term deferred revenues and it will be amortized over the use of the related assets.

In 2023, Acme Electronics (Guang-Zhou) received subsidies from the local government to cover depreciation arising from the use of assets. Acme Electronics (Guang-Zhou) recognized the subsidy amount as long-term deferred revenues and it will be amortized over the use of the related asset.

As of December 31, 2024 and 2023, the amount of unamortized deferred revenues (recorded as other non-current liabilities) was RMB 7,329 thousand (NT\$33,424 thousand), RMB 8,032 thousand (NT\$34,822 thousand), respectively.

Share capital issued	<u>\$ 11,887,635</u>	<u>\$ 11,887,635</u>

The holders of issued ordinary shares with a par value of \$10 are entitled to the right to one vote and to receive dividends.

b. Capital surplus

The capital surplus generated from donations and the excess of the issuance price over the par value of share capital (including the issuance of ordinary shares in excess of par value, the capital stock premium of shares issued due to merger, and treasury shares trading, etc.) may be used to offset a deficit; in addition, when the Company has no deficit, such capital surplus may be distributed as cash dividends or share dividends up to a certain percentage of the Company's paid-in capital. The capital surplus arising from investments accounted for using the equity method and from dividends had not been received during the given period by stockholders are used to offset a deficit only.

c. Retained earnings and dividends policy

In accordance with the dividends policy as set forth in the Company's Articles of Incorporation, where there is a profit in a fiscal year, the profit after tax shall be first utilized for offsetting losses of previous years, setting aside as a legal reserve 10% of the remaining profit, setting aside or reversing a special reserve in accordance with the laws and regulations, and then any remaining profit together with any undistributed retained earnings shall be used by the Company's board of directors as the basis for proposing a distribution plan, which should be resolved in the shareholders' meeting for the distribution of dividends and bonuses to shareholders. For the policies on the distribution of employees' compensation and remuneration of directors after the amendment, please refer to "employees' compensation and remuneration of directors" in Note 27 (g).

The industry that the Company operates in is in the maturity stage. Consequently, in order to take R&D needs and diversification into consideration, shareholders' dividends shall be no less than 10% of the distributable earnings in the current year, of which the cash dividends not be no less than 10% of the total dividends. However, dividends may be stopped if the distributable profit per share in the current fiscal year is less than NT\$0.1.

The appropriation of earnings to the legal reserve shall be made until the legal reserve equals the Company's paid-in capital. The legal reserve may be used to offset deficits. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be transferred to capital or distributed in cash.

The appropriations of earnings for the years ended December 31, 2023 and 2022 as resolved in the shareholders' meetings on May 31, 2024 and 2023, respectively, are as follows:

f. Unused loss offset information

As of December 31, 2024, the Group had unused loss offsets of NT\$5,998,110 thousand, which will expire gradually by 2044.

g. Income tax assessments

The Company, ACME, TTC, USII, CGPC, CGPCPOL, TVCM, GGT, USIO, APC, APCIC, TUVV, TUVV, USIGE, UPIIC, CGTD, UM, CLT, SPC and STC have had income tax filings certified by the tax authority up to 2022.

29. LOSSES PER SHARE

Unit: NT\$ Per Share

	For the Year Ended December 31, 2024	For the Year Ended December 31, 2023
Basic loss per share	( \$ 2.00 )	( \$ 0.19 )
Diluted loss per share	( \$ 2.00 )	( \$ 0.19 )

The losses and weighted average number of shares used for calculating loss per share is explained below:

Net loss for the year

	For the Year Ended December 31, 2024	For the Year Ended December 31, 2023
Net loss attributable to owners of the Company (the net loss used for calculating basic and diluted loss per share)	( \$ 2,147,470 )	( \$ 207,006 )

Number of Shares

Unit: thousands of shares

	For the Year Ended December 31, 2024	For the Year Ended December 31, 2023
Weighted average number of ordinary shares used in the computation of basic loss per share	1,072,298	1,072,298
Effect of potentially dilutive ordinary shares: Employees' compensation	-	-
Weighted average number of ordinary shares used in the computation of diluted loss per share	1,072,298	1,072,298

If the Group offered to settle remuneration paid to employees in cash or shares, the Group assumed the entire amount of the remuneration would be settled in shares, and the resulting potential shares were included in the weighted average number of shares outstanding used in the computation of diluted earnings per share, as the effect is dilutive. Such dilutive effect of the potential shares is included in the computation of diluted earnings per share until the number of shares to be distributed to employees is resolved in the following year.

The Company incurred a net loss for the years ended December 31, 2024 and 2023. Employees' compensation had a anti-dilutive effect and therefore was not included in the calculation of diluted loss per share.

### 30. CASH FLOW INFORMATION

#### a. Non-cash transactions

Except as disclosed in other notes, the following non-cash investing and financing activities of the Group for the years ended December 31, 2024 and 2023, were:

### 31. CAPITAL MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as going concern while maximizing the return to stakeholders through the optimization of the debt and equity balance. The Group's overall management strategy remains unchanged from the past year.

The capital structure of the Group consists of its net debt and equity.

Key management personnel of the Group review the capital structure periodically. As part of this review, the key management personnel consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the key management personnel, in order to balance the overall capital structure, the Group may adjust the amount of dividends paid to shareholders, and the amount of new debt issued or existing debt redeemed.

### 3) Valuation techniques and inputs applied for Level 2 fair value measurement

Categories of financial instruments	Valuation Techniques and Inputs
Financial liabilities - domestic corporate bonds	The corporate bond interest rate announced by Taipei Exchange, of which per-hundred price is calculated according to the credit rating and the maturity date through interpolation method.
Derivatives - foreign exchange forward contracts	Discounted cash flow: Future cash flows are estimated based on observable forward exchange rates at the end of the reporting period and contract forward rates, discounted at a rate that reflects the credit risk of various counterparties.

### 4) Valuation techniques and inputs applied for Level 3 fair value measurement

The Group applied the valuation techniques and inputs for Level 3 fair value measurement for its independent fair value authentication of financial instruments which was carried out by the financial department. The Group values domestic and overseas unlisted equity investments using the asset approach, in which fair value is determined by taking into consideration the latest net worth and observable financial and operating factors of the investee.

A reduction in liquidity discount would increase the fair value of the investee. When the discount for lack of marketability increases/decreases by 10%, the fair value would have decreased/increased by NT\$53,687 thousand and NT\$51,725 thousand, respectively, for the years ended December 31, 2024 and 2023.

d. Financial Risk Management Objectives and Policies

The Group's conduct of risk controlling and hedging strategy is influenced by the operational environment. The Group monitors and manages the financial risk by business nature and risk dispersion. These risks include market risk (including foreign currency risk, interest rate risk and other price risks), credit risk and liquidity risk.

1) Market risk

The Group's activities exposed it primarily to the financial risks of changes in foreign currency exchange rates, interest rates and other price risks.

There has been no change to the Group's exposure to market risks or the manner in which these risks were managed and measured.

(1) Foreign currency risk

The Group had conducted foreign currency sales and purchases, which exposed the Group to foreign currency risk. In order to avoid the impact of foreign currency exchange rate changes, which lead to deductions in foreign currency denominated assets and fluctuations in their future cash flows, the Group used foreign exchange forward contracts to eliminate foreign currency exposure and thus mitigate the impact of the risk. The use of foreign exchange forward contracts was governed by the Group's policies approved by the board of directors. Compliance with policies and exposure limits was reviewed by internal auditors on a continuous basis. The Group did not engage in any derivative transactions for speculative purposes.

For the carrying amount of monetary assets and monetary liabilities denominated in non-functional currencies of the Group as of the balance sheet date, please refer to Note 38. For carrying amount of derivatives exposed to exchange rate risk, please refer to Note 7.

Sensitivity analysis

The sensitivity analysis of foreign currency risk mainly focuses on the computation of foreign currency monetary items at the end of the financial reporting period (U.S. dollar and RMB denominated items). When the Group's individual functional currency relative to the USD and RMB appreciates/depreciates by 3%, net loss before income tax of the Group would have increased/decreased by NT\$80,896 thousand and NT\$91,179 thousand for the years ended December 31, 2024 and 2023.

In management's opinion, the sensitivity analysis was unrepresentative of the inherent foreign currency risk because the exposure at the end of the reporting period did not reflect the exposure during the period.

(2) Interest rate risk

The Group was exposed to the fair value risk of interest rate fluctuations for the fixed interest rate bearing financial assets and financial liabilities; the Group was exposed to the cash flow risk of interest rate fluctuations for the floating interest rate bearing financial assets and financial liabilities. The Group's management regularly monitors the fluctuations in market rates and then adjusted its balance of floating rate bearing financial liabilities to make the Group's interest rates more closely approach market rates in response to the interest rate risk.

The carrying amount of the Group's financial assets and financial liabilities with exposure to interest rates at the end of the reporting period were as follows:

	December 31, 2024	December 31, 2023
Fair value interest rate risk		
- Financial assets	\$ 10,112,418	\$ 9,822,484
- Financial liabilities	11,487,902	11,719,150
Cash flow interest rate risk		
- Financial assets	3,022,298	2,945,405
- Financial liabilities	9,393,543	6,393,637

Sensitivity analysis

Regarding the sensitivity analysis of interest risk, the Group's computation was based on the balance sheet date of financial assets and financial liabilities with cash flow interest rate risk. A 0.5% increase/decrease of market interest was used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rate. While maintaining all other variables unchanged, a 0.5% increase/decrease in market rate would increase/decrease net loss before income tax of the Group by NT\$31,856 thousand and NT\$17,241 thousand for the years ended December 31, 2024 and 2023.

(3) Other price risks

The Group was exposed to the equity price risk through its investments in domestic and foreign listed (OTC) shares, fund beneficiary certificates and other investments. The Group manages this exposure by maintaining a portfolio of investments with different risks. In addition, the Group has appointed a special team to monitor the price risk.

Sensitivity analysis

The following sensitivity analysis was determined based on the price of equity securities on the balance sheet date. However, the fund beneficiary certificates held by the Group are mainly money market funds, which have very low price volatility risk, so it is not included in sensitivity analysis.

If the equity price had increased/decreased by 5%, net losses before tax for the years ended December 31, 2024 and 2023, would have increased/decreased by NT\$30,969 thousand and NT\$37,529 thousand, respectively, as a result of the changes in fair value of financial assets at FVTPL (excluding fund beneficiary certificates). Pre-tax other comprehensive income for the years ended December 31, 2024 and 2023, would have increased/decreased by NT\$101,199 thousand and NT\$108,396 thousand, respectively, as a result of the changes in fair value of financial assets at FVTOCI.

## 2) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations and result in financial loss to the Group. As of the balance sheet date, the Group's maximum exposure to credit risk, which would cause a financial loss to the Group due to the failure of the counterparty to discharge its obligation, could arise from:

- (1) The carrying amount of the financial assets recognized in the consolidated balance sheets; and
- (2) The maximum amount payable by the Group due to financial guarantees provided by the Group.

The Group adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults.

The Group's exposure and the credit ratings of its counterparties are continuously monitored. The counterparties of the Group's accounts receivable included numerous clients distributed over a variety of areas and were not centered on a single client or location. Furthermore, the Group continuously assesses the financial condition of its clients, and then the Group's credit risk was limited. On the balance sheet date, the Group's maximum exposure to credit risk is approximately the carrying amounts respective recognized financial assets as stated in the balance sheet.

## 3) Liquidity risk

The Group operations and mitigate the effects of the Group's operating cash flow fluctuations by managing and maintaining sufficient cash and cash equivalents.

- (1) Liquidity of non-derivative financial liabilities and interest risk table

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The table was drawn up based on the undiscounted cash flows of financial liabilities from the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows.

35. SIGNIFICANT CONTINGENT LIABILITY AND UNRECOGNIZED CONTRACTUAL COMMITMENTS

- a. As of December 31, 2024 and 2023, the Group unused letters of credit amounted to NT\$2,085,010 thousand and NT\$2,449,155 thousand, respectively.
- b. Regarding the Company's associate, China General Terminal & Distribution Corporation ("CGTD"), which was commissioned to operate the propylene pipeline of LCY Chemical Corp. ("LCY") resulting in a gas explosion on July 31, 2014, the appeal was dismissed by the Supreme Court on September 15, 2021, and all three employees of CGTD were declared not guilty.

On February 12, 2015, CGTD entered into an agreement with the Kaohsiung City Government to provide the Kaohsiung City Government with a pledge over a bank deposit certificate of NT\$234,785 thousand (including interests) as the guarantee for the loss caused by the gas explosion. Kaohsiung City Government has also filed civil lawsuits against LCY, CGTD and CPC Corporation. Taiwan Power Company applied for provisional seizure against CGTD's property on August 27 and November 26, 2015. CGTD had deposited cash of NT\$99,207 thousand to the court to avoid provisional seizure. Taiwan Water Corporation also applied for provisional seizure against CGTD's property on February 3 and March 2, 2017. As of February 28, 2025, the provisionally seized property of CGTD was NT\$6,401 thousand.

For the victims of the gas explosion, CGTD, LCY and the Kaohsiung City Government signed a tripartite agreement for severe injuries on July 17, 2015 agreeing to negotiate the compensation first with the 32 severely injured victims, agreeing to negotiate compensation in advance for all the heirs and claimants of the 32 victims (hereinafter referred to as the families of the victims), paying the families of the victims NT\$12,000 thousand for each victim, with a total settlement of NT\$384,000 thousand. LCY paid the

compensation first and also represented the three parties in the settlement negotiation and the signing of settlement agreements with the family of the deceased. In addition, according to the tripartite agreement, CGTD had paid NT\$157,347 thousand to LCY on August 10, 2022 according to the proportion of fault liability, 30%, in the first-instance judgments of this case. Follow-up still awaits the determination of the civil lawsuit, and then make up for it according to the determined liability proportion.

For the severely injured, CGTD, LCY and the Kaohsiung City Government signed a tripartite agreement for severe injuries on October 25, 2017 agreeing to negotiate the compensation first with the 65 severely injured victims. The compensation was paid by CGTD and the Kaohsiung City Government, and CGTD was in charge of negotiating the compensation with the seriously injured victims' families and signing the settlement agreement on behalf of the three parties with the 64 seriously injured victims' families.

As of February 28, 2025, the victims and victims' families had written letters or filed civil lawsuits (including criminal lawsuits) against LCY, CGTD, and CPC for compensation claims. To reduce the lawsuit costs, CGTD came to a compromise and reduced the original claim of NT\$46,677 thousand and settled for a compensation amount of NT\$4,519 thousand instead. Along with the case still under litigation and the above-mentioned compensation, the accumulated amount of compensation is NT\$3,831,211 thousand. The first-instance judgments of some of the above-mentioned civil cases (with a total amount of compensation of approximately NT\$1,467,830 thousand) have been gradually announced, starting from June 22, 2018. The proportion of fault liability of the Kaohsiung City Government, LCY and CGTD is 4:3:3 in most judgments. The total amount of compensation that CGTD, LCY and the other defendants should pay is around NT\$401,979 thousand. (In particular, CGTD was exempted from paying NT\$6,194 thousand according to the court's judgment.)

CGTD filed an appeal to the civil lawsuit that has been awarded the first-instance decision but not yet settled. The court of second instance started announcing its decisions from July 10, 2024, and by February 28, 2025, the court had issued rulings for 9 of the claims made by Kaohsiung City Government (totaling approximately NT\$1,137,677 thousand). In 8 of the claims, the court found CGTD and LCY to be jointly accountable for 10% (5 claims) or 20% (3 claims) of the fault, for which CGTD and LCY shall jointly pay a compensation totaling NT\$79,726 thousand. In one other case, the court found CGTD solely accountable for 10% of the fault, for which CGTD shall pay a compensation of NT\$297 thousand. The court of second instance also ruled CGTD and LCY jointly liable to pay compensations totaling NT\$108,835 thousand to Taiwan Power Company (total claims amounted to NT\$265,822 thousand) and National Health Insurance Administration (total claims amounted to NT\$35,688 thousand). CGTD has raised appeals to the above cases ruled by the second-instance court, except those that can not be appealed further. The remaining

cases are still pending in the court of first instance (with claims totaling approximately NT\$1,860,557 thousand).

Based on the accountability ratios that the court has ruled for the gas explosion incident, the Company was able to estimate the amount of settlement with victims and the severely injured and the amount of compensation in civil cases (including cases that have been settled). After taking into consideration the maximum insurance claim and deductibles, the estimated amount that should be borne by CGTD has been recognized at NT\$136,375 thousand. However, the actual amount of the aforementioned relevant settlements and compensation will not be confirmed until the proportion of the liabilities that should be borne by CGTD is determined in the civil case judgment in the future.

### 36. LOSSES FROM MAJOR DISASTERS

On October 19, 2024, a fire broke out at the tape factory of China General Plastics Corporation (CGPC), one of the Company's subsidiaries, which caused partial damage to the equipment and inventory in the factory. As of December 31, 2024, the carrying amount of the property loss was NT\$151,734 thousand, and was presented as other gains and losses. CGPC had purchased property insurance and negotiated with the insurance company for claims. However, due to the fact that insurance claim requires an inspection of the damage suffered, CGPC will recognize insurance claims income once the amount can be determined with reasonable certainty. Based on a preliminary assessment of the damages and claims, CGPC considers the fire to have no material impact on overall operations.

### 37. OTHER MATTERS

#### a. SIGNIFICANT CONTRACTS

- 1) TVCM signed a dichloroethane purchase contract with CPC Corporation, Formosa Plastics Corporation and Blue Water Alliance. The purchase price was negotiated by both parties according to a pricing formula.
  - 2) CGTD is commissioned by the Company, TTC, APC, TVCM, TSRC Corporation, Oriental Union Chemical Corporation, and others to operate the storage and transportation of any items of petrochemical raw materials; operating service charges are calculated in accordance with the actual operation quantities and at the rate per ton stated in the contracts. The insurance expenses of petrochemical raw materials are borne by individual commissioned companies.
- b. On February 15, 2023, the President announced amendments to the Climate Change Response Act that introduced new rules on carbon fee collection. The Ministry of Environment subsequently announced drafts for "Regulations on Collection of

Carbon Fee," "Regulations Governing Voluntary Reduction Plan," and "Greenhouse Gas Reduction Targets for Carbon Fee Payers" on August 29, 2024, and issued an announcement later on October 21, 2024 about the carbon fee rate, which will take effect from January 1, 2025 onwards. The Group will become one of the carbon fee payers given its level of emission in 2023. For this reason, the Group will be making liability reserves in accordance with the above regulations starting from 2025.
